

Our Curriculum Drivers

At Archbishop Wake Primary school we believe that our curriculum should offer children not only the National Curriculum, but life skills and experiences beyond this. Alongside the teaching requirements of the National Curriculum, key drivers have been selected through consultation with the school community, who have identified the specific and unique needs of our children. The following key drivers underpin our learning and are developed through the school.

Aspiration

We want all our children to aspire and to live their lives to the full. We understand that we need to broaden their horizons through rich experiences of the world. We provide a supportive environment in which to nurture their interests and self-belief, in order for each individual to become aware of their own potential for success.

Community

We enable all children to develop the social and emotional skills necessary for them to experience positive relationships and to develop a sense of justice, empathy and respect for themselves and others. We believe that the power of the school community can change, inspire and enhance the lives of every member of both our school and wider community. We aim to help the children understand that they are all part of a global community and to gain a sense of where they fit into this and that they play an important part in our world's future.

Inclusion

We wholeheartedly embrace all additional needs, encourage understanding and celebrate diversity. We support and enable all children to be confident and equipped for life's journey, thereby ensuring every child works towards fulfilling their potential.

Language

We believe in developing every child's unique voice by broadening their vocabulary, increasing their fluency and raising their awareness and their confidence. Language is a means to communicating effectively, but it is also the doorway to magical and exciting worlds. Through a carefully planned, and language rich curriculum, we will enable our learners to become confident communicators, who are equipped to succeed now and in the future.
