

Aim high, believe; Fly high, achieve.

22nd January 2025

Dear Parents/Carers

This half term Year 2 have been exploring 'Where our food comes from' as part of our Geography and Design Technology learning.

The children will be trying a variety of vegetables and fruit to learn about where they are produced and our preferences. These include plum, apple, grape, pear, banana, orange, mango, tomato, pineapple and peach. They will be exploring the different countries some of these fruits are exported from to support their Geography learning. They will also be designing and making vegetable pies as part of our DT learning. The vegetables they will try are cooked potatoes, carrots, parsnips and swede. After designing their vegetable pie, the children will be choosing their preferred vegetables and trying them. We will be buying vegan pastry for these pies.

We understand there may be food the children haven't tried before or they may not particularly like them. However, we encourage the looking, touching and tasting if they so wish.

Please talk to your class teacher if you have any concerns or queries regarding our unit this half term.

Kind regards

Miss Strong & Miss Wood
Year 2 Teachers
