

Action plan for current year 2019-20

The following plan details how we plan to use the money to maintain and improve provision.

Activity	Budget	Anticipated impact
Purchase of children's sized running watches (10 per year group to be shared by classes).	£1000	Children will be inspired to beat their own PB time for the Daily Mile. This will be the case for chn wearing the watches as well as others who are keen to aim for their PB and wear a watch next time. Link to whole school values of perseverance and courage.
Purchase additional resources to maintain quality of provision and to resource intra-school events. Resources purchased to allow the introduction of new sports to the school.	£4000	Ensure enough high quality equipment is available to promote enjoyment of PE and efficiency in lessons to allow all to be fully involved. Variation of equipment to allow differentiation in lessons.
Purchase of secure shipping container to be sited on the field to store large equipment and other equipment which is only used on the field.	£1000	Use of equipment will be significantly easier which will encourage staff to use things more regularly. Children will benefit in their PE lessons as less time will be lost on sorting equipment. They will be active for longer and enjoy lessons more. Expensive equipment such as football goals and hurdles will be more secure and therefore last longer proving better value for money.
Purchase of another shipping container or alternative to replace the shed on the playground. Equipment needs to be securely stored where it won't get wet and be ruined.	£1000	Equipment storage will be more organised making it easier to access and use. Staff will be better able to differentiate lessons and plan a variety of activities as they will have equipment to support them. Children will

		enjoy lessons more and spend more time being active. Equipment will also be more secure making it last longer proving better value for money.
Transport costs to allow children to participate in inter school events at other schools throughout the year.	£2000	Remove barriers to participation – allow as many children as possible to be part of events.
Top up swimming lessons to ensure all children can swim a minimum of 25m unaided by end KS2.	£2000	Ensure all children can swim the expected 25m.
Pay for supply cover to allow time for events to be organised and for staff to attend events with teams.	£1000	Remove barrier to participation – all children will be able to participate in intra-school events, teams will be able to participate in inter-school events.
Subsidising of after school PE clubs and coaching for school teams.	£2000	Remove barrier to participation – allow as many children as possible to attend sports clubs. Keep profile of school sport and school teams high around the school
Purchase of school branded PE t-shirts for teams and classes of children to wear to inter-school events. Need to link to new school uniform. Also new hoodies for those chosen for school teams. (3 x sets of 30 – Y1/2 sized, Y3/4 sized, Y5/6 sized)	£1500	Raise the profile of school sport. Ensure that chn attend events with a feeling of pride that they belong to ABW.
CPD and purchase of resources to help staff to deliver high quality lessons in areas of PE where they are less confident. Will need to discuss with staff to work out areas to target.	£4500	Staff will feel more confident that they are able to deliver high quality PE lessons in areas they were previously unsure.

		Children's experience of PE lessons will be more positive, varied and of higher quality.
